

# **12V lithium battery integrated inverter**

## Overview

---

Can a 12V 720w inverter charge a lithium ion battery?

The Mecer IVR-1200LBKS 12v 720W inverter is primarily meant for lead acid batteries, but can seemingly be used to charge lithium-ion batteries due to the protection provided by the BMS's in the batteries. The user is questioning the safety and efficiency of this setup.

What is a 12V inverter?

A 12V inverter is a device that converts 12V DC electric from your leisure batteries into the standardised AC current in your country of origin (120AC for the states, 240AC for the UK). It integrates into the electrical setup inside your campervan.

Does a power inverter have a battery charger?

Power Inverters with built in direct current battery chargers provide a uninterruptible power supply. If you require a home power supply backup this would be the solution.

What is a 120ah 12V lithium deep cycle battery?

KickAss has dedicated over 10 years to the development and design of the 120Ah 12V Lithium Deep Cycle Battery. This battery offers twice the usable capacity compared to a traditional 120Ah AGM battery, making it equivalent to a 240Ah AGM battery in terms of capacity.

What is a 12V mini power box?

The KickAss 12V Mini Power Box distributes power from your auxiliary battery to up to 10 different devices at once. Built with 6 x USB ports, 2 x 12V cigarette sockets, and 2 x Anderson input/output ports, it can power phones, tablets, 12V fridges, ovens, vacuum sealers, projectors, and more.

Is the kickass 120ah 12V lithium deep cycle battery safe?

Utilizing LiFePO<sub>4</sub>, one of the safest and most stable lithium chemistry types, ensures that the KickAss 120Ah 12V Lithium Deep Cycle Battery is safe for even the most rugged terrains, providing at least 4000 cycles at 80% depth of discharge.
