

# **12v 24v automatic switching inverter**

## Overview

---

What are the features of a power inverter?

Automatic Selection: Automatically select between DC 12/24/48V, AC 100-120V 60HZ / 220-240V 50HZ. Fast Transfer Time: Inverter transfers to utility power  $\leq 10\text{ms}$ , utility power transfers to inverter  $\leq 16\text{ms}$ . LCD Display: Battery real-time voltage; working status of utility power, inverter and battery.

Can a solar inverter work with a timer?

Works With A Timer: Use solar power then switch back to AC power 50/50 to give your overall solar power system a break without running on battery all the time No More Unplugging - Just turn off the inverter, and everything switch to primary AC power connected to the grid without unplugging or reconfigure bunch of other cords. Specs:.

Does a power inverter have a battery charger?

Power Inverters with built in direct current battery chargers provide a uninterruptible power supply. If you require a home power supply backup this would be the solution.

Can a battery inverter power a refrigerator?

Easy to install. The inverter will quickly switch between city/shore power and battery power automatically, without any extra wires. Power microwaves, refrigerators, freezers, heaters, computers, tools, compressors and pumps. Includes a 2 year warranty. Compatible with any 12 Volt battery system.

How does a solar inverter work?

In applications where there is a stand-alone solar or wind system with an available AC mains supply (utility power), one can choose to use the energy stored in the battery (IES) first and when the inverter disconnects due to a low voltage battery, the controller automatically transfers the loads to the mains

(utility power).

What is an ATS power transfer controller?

The ATS power transfer controller provides reliable operation of an inverter and AC utility power in one compact device. The ATS switches automatically between the AC utility power and the inverter, while protecting the inverter against external Voltages. The ATS controller will switch to grid power when batteries are lower than the user define.

## 12v 24v automatic switching inverter

---

### 2000 WATT PURE SINE INVERTER WITH AUTOMATIC TRANSFER SWITCH ...

Easy to install. The inverter will quickly switch between city/shore power and battery power automatically, without any extra wires. Power microwaves, refrigerators, freezers, heaters, ...
