

40-foot site container power generation module

Overview

What is a 40ft containerized battery energy storage system?

AZE's 40Ft containerized battery energy storage system comes in scalable containerized modules ranging from tens of kWh to MWh energy capacities. The solutions offers plug-and-play features that allow rapid installation at low installation costs.

What is a 40 ft containerized generator set?

Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for easy transportation, simple installation and are stackable, offering up to 34% space utilization savings over traditional build designs.

Why should you choose a containerized generator set?

Quicker startups for shorter deployment times. Robust Performance -Fully integrated containerized generator set is optimized for diverse critical power requirements regardless of environmental conditions.

Why should you choose a 40 foot container?

Prioritizes performance, quality, quiet operations, ease of installation, serviceability, versatile layout choices and stackable design. The 40 foot container mitigates shipping obstacles by fitting on standard truck trailers. No more high freight costs and oversized non-standardized designs. Quicker startups for shorter deployment times.
