

# **Bahamas photovoltaic energy storage subsidies**

## Overview

---

How does a comprehensive energy policy work in the Bahamas?

Our comprehensive energy policies work together to modernize our system and bring electricity prices down in The Bahamas. 70MW of solar power and 35MW of Battery Energy Storage Systems will be integrated into the existing grid.

Does Bahama have a solar power project?

The Bahamian government owns and manages property rooftops, parking lots and green spaces, on which solar power projects could be developed. Several projects that capitalize on that solar power potential are underway, Jones Bahamas points out.

How will a new energy system affect the Bahamas?

Comprehensive upgrades to our country's transmission and distribution infrastructure, and switching from heavy and diesel fuels to solar power and natural gas, will create new efficiencies and reduce the price of electricity in The Bahamas. But it won't happen overnight – it will take time to upgrade our grid and to integrate cleaner energy.

Is the Bahamas a difficult place to generate electricity?

BPL Chairman Donovan Moxey was quoted in a Tribune Business news report. The Bahamas is a very difficult place to generate electricity, distribute it and sell it, even as compared to other Caribbean islands, Chris Burgess, Islands Energy Program projects director, told Solar Magazine.

How much does electricity cost in the Bahamas?

Affordability and Price ExpectationsAffordability remains a central objective of the Davis Administration's energy reform programme. Historically, The Bahamas has had some of the highest electricity costs in the region, with consumers paying between \$0.28 and \$0.35 per kilowatt-hour, largely due to

dependence on imported fuel.

How has the Davis administration reformed the energy system in the Bahamas?

ergy ReformAPRIL 2025 Summary The Davis Administration has embarked on the most ambitious and far-reaching reform of the energy sector in the history of The Bahamas. This reform is guided by the understanding that energy is central to national development and that the longstanding failures in the electricity system
