

# **Belarusian container battery energy storage system manufacturer**

## Overview

---

RENERA (part of Rosatom's nuclear fuel division TVEL) is engaged in the production and distribution of energy storage systems. The company produces Li-NMC batteries for electric vehicles. What is a containerized energy storage system?

The Containerized energy storage system refers to large lithium energy storage systems installed in sturdy, portable shipping containers, which usually range from 5ft, 10ft, 20ft, and 40ft, and mainly focus on 50Kwh to 10Mwh.

What is a lithium battery energy storage container system?

lithium battery energy storage container system mainly used in large-scale commercial and industrial energy storage applications. We offer OEM/ODM solutions with our 15 years in lithium battery industry.

Why should you choose a lithium-ion battery storage container?

Flexibility and scalability: Compared with traditional energy storage power stations, lithium-ion battery storage containers can be transported by sea and land, no need to be installed in one fixed place and subject to geographical restrictions.
