

Belgian energy storage high power supply manufacturer

Overview

What is the largest energy storage project in Europe?

A first flagship energy storage project in Belgium After commissioning four battery parks in France offering total energy storage capacity of 130 MWh, this project will be the Company's largest battery installation in Europe.

Who is totalenergies in Belgium?

In Belgium, TotalEnergies is a major player in the entire electricity value chain. As an electricity supplier, the company has a portfolio of 450,000 BtC sites and around 100,000 BtB sites.

Who is delivering a battery energy storage system?

It will be delivered by Italian developer NHOA Energy. French state-backed utility Engie has broken ground on the second of the battery energy storage systems (BESS) awarded it by Belgian grid operator Elia under a national plan to procure more grid electricity.

What funding is available for R&I projects in Belgium?

Belgium: Energy Transition Fund. Support for R&I projects for energy. In this context, several publicly funded R&I projects which also include storage, are being performed by Belgian research centres. The funding for energy related R&I projects in 2022 amounts to 25 million €.

Why is totalenergies developing a battery energy storage system?

This project, located on the Antwerp refinery site, will benefit from the available land and the site's grid connection. It is a new step in TotalEnergies' development of battery energy storage systems (BESS) which strengthens the Company's presence across the entire electricity value chain in Belgium (production, storage, supply).

Where will a 100 mw Bess gas plant be installed?

An initial, 100 MW BESS was due to be installed by September last year in Vilvoorde, north of Brussels, with a second 100 MW phase due in January. That site is based at an Engie gas plant and the French utility is also developing an 80 MW/320 MWh BESS in Drogenbos, in Belgium's Flemish region.
