

Bosnia and Herzegovina Energy Storage Container Northwest

Overview

How is energy used in Bosnia and Herzegovina?

Total energy supply (TES) includes all the energy produced in or imported to a country, minus that which is exported or stored. It represents all the energy required to supply end users in the country.

What is Bosnia & Herzegovina's national Environmental Action Plan?

Bosnia and Herzegovina adopted a National Environmental Action Plan, which provides action path to address the major environmental issues of the country. In the energy sector the target will be achieved by increasing energy efficiency and usage of renewables.

Is biomass a source of electricity in Bosnia & Herzegovina?

Traditional biomass – the burning of charcoal, crop waste, and other organic matter – is not included. This can be an important source in lower-income settings. Bosnia and Herzegovina: How much of the country's electricity comes from nuclear power?

Nuclear power – alongside renewables – is a low-carbon source of electricity.
