

Brunei battery solar photovoltaic panels

Overview

Will Malaysia build Brunei's first solar plant?

A joint venture partly owned by a subsidiary of Malaysia's Solarvest will build Brunei's first utility-scale solar plant under a 25-year power purchase agreement (PPA) with the Brunei government. A 30 MW solar park is under development in Brunei. Seri Suria Power (B) Sdn. Bhd., a newly formed joint venture, will build and operate the project.

How much solar power does Brunei have?

According to the International Renewable Energy Agency (IRENA), Brunei's cumulative installed solar capacity stood at 5 MW at the end of 2024, unchanged since 2021. Brunei aims to reach 30% renewable energy in its electricity mix by 2035. This content is protected by copyright and may not be reused.

Who owns the solar plant in Brunei?

The solar plant in Brunei is currently operated and maintained by BSP. Agnete Johnsgaard-Lewis, BSP Managing Director and Shell Country Chair in Brunei, shared this information.

How much does solarvest cost in Brunei?

Solarvest says the project will be built for an estimated BND 34 million (\$26.46 million). Brunei's electricity generation is heavily dependent on fossil fuels, with a 95% share in 2024. The government targets to lower its GHG emissions by 20% from business-as-usual (BAU) levels by 2030, as it seeks to achieve a 30% renewable energy mix.

Can a solar farm be developed in Brunei?

The new solar farms may be developed through public-private partnerships as the ministry seeks to reduce the government's financial burden. Brunei has set a target of generating 100 MW of solar energy by 2025 as part of the

government's initiative to slash greenhouse gas emissions by 20 percent over the next 10 years.

Where will a solar plant occupy a remediated landfill in Brunei?

The solar plant will occupy a 33.3-hectare remediated landfill in Kampong Belimbing, a village in the Brunei-Muara district of northern Brunei. The project already has a land lease agreement with the government.
