

# Czech photovoltaic cell modules

## Overview

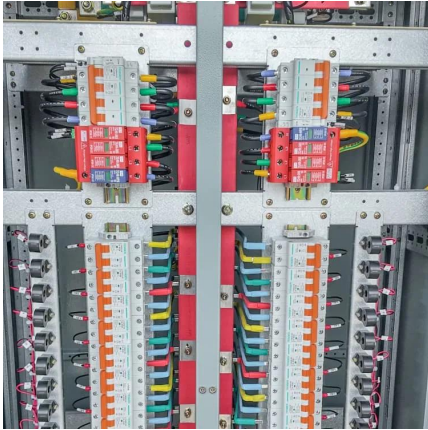

---

The had almost two (GW) of capacity at the end of 2010, but installed less than 10 megawatts (MW) in 2011 due to the being reduced by 25%, after installing almost 1,500 MW the year before. Installations increased to 109 MW in 2012. In 2014, no new installations were reported.
