

Côte d'Ivoire Solar Mobile Project

Overview

Why should Côte d'Ivoire invest in a solar power plant?

The solar power plant is regarded as a model project for the expansion of solar energy in Côte d'Ivoire. It is an important contribution to the fight against climate change and a decisive step towards increasing the share of renewable energies in the country's electricity supply to 45% by 2030.

Where is the first solar power plant in Côte d'Ivoire?

In Boundiali in the north of Côte d'Ivoire, the country's first solar power plant has now been inaugurated by Ivorian Prime Minister Beugré Mambé and German Parliamentary State Secretary Bärbel Kofler. The power plant has already been providing up to 37 megawatts of power since June 2023.

When will a solar power plant open in Côte d'Ivoire?

In the northern region of the Côte d'Ivoire, the first phase of a solar power facility has been officially opened. The Boundiali solar power plant's financing was initially revealed in 2018, and details of its commissioning were made public in December 2022.

Why did KfW build a solar power plant in Côte d'Ivoire?

"We also endeavoured to create employment for the local population," emphasises KfW Project Manager Clara Winkler-Tomety. During the construction phase, 75% of the workers came from the region. The new solar power plant in Côte d'Ivoire is helping to achieve the goals of German development cooperation in the expansion of renewable energies.

How many solar plants are there in Côte d'Ivoire?

Additionally, Coulibaly mentioned plans to build seven more plants. These solar plants are 50 MWp in Tengréla, 50 MWp in Kong, 25 MWp in Sérébou, 60 MWp in Touba and Loba, 50 MWp in Odienné, 50 MWp in Mankono, and 25 MWp in Soubré. In the northern region of the Côte d'Ivoire, the first phase of a

solar power facility has been officially opened.

How will Côte d'Ivoire contribute to energy transition?

Cooperation with Côte d'Ivoire is to be further intensified within a climate and development partnership. The aim is to support energy transition towards more renewable energies in the West African country and to further expand its role as a net electricity exporter to enhance security of supply in West Africa.
