

Does the North Macedonia Energy Storage Group belong to the China Southern Power Grid

Overview

How does North Macedonia generate electricity?

North Macedonia has historically relied on hydropower for a significant portion of its electricity generation. The country has utilized its rivers to develop hydropower plants. There have been also efforts to harness wind energy, and several wind projects have been proposed or are under development.

Does North Macedonia still have a coal power plant?

The smaller coal power plant, “REK Oslomej,” which was dormant through 2020, was reactivated in 2021 to help North Macedonia reduce its reliance on electricity imports. ESM refurbished the “REK Bitola” coal power plant boilers in 2017, but its equipment is still largely outdated.

Who regulates the energy sector in North Macedonia?

Energy Regulatory Commission (ERC): The Energy Regulatory Commission regulates and oversees the energy sector in North Macedonia. ERC is responsible for ensuring fair competition, consumer protection, and adherence to legal and regulatory standards. 3.

How much will ESM invest in North Macedonia?

The investment is estimated to be over \$1 billion and will be crucial for balancing the electricity system. ESM owns and operates North Macedonia’s 36.5 MW wind park in the southern part of the country, and a private company completed construction of another 36 MW wind park.
