

East Timor Communication Base Station Installation Project

Overview

Why is Timor-Leste laying a fibre optic cable through the Timor Sea?

Timor-Leste Starts Operation to Lay Undersea Fibre Optic Cable through Timor Sea. Foto:INDEPENDENTE. DILI: Timor-Leste on Monday began laying its first undersea fibre optic communications cable through the Timor Sea as part of a state-run project to bring high-speed and reliable internet to the country for the first time.

When will undersea fiber optic cables arrive in Timor-Leste?

DILI, 16 april 2024 (TATOLI) - The Minister of Transportation and Communications, Miguel Marques Manetelu, said the Undersea Fiber Optic Cables for the Timor-Leste's South Submarine Cable (TLSSC) project will arrive in Timor-Leste from France by the end of June 2024.

What is the 'one port' project in East Timor?

Equally significant is the "One Port" project. The Tiba Port project, constructed by China Harbour, is located 10 kilometers west of the capital Dili. The main body of the port is a 630-meter-long dock, including a 7000 TEU berth and a 3500 TEU berth. It is the first modern international container freight terminal in East Timor's history.

Why is the south submarine cable project important for Timor-Leste?

Minister Manetelu said that the South Submarine Cable project is a crucial component for Timor-Leste, as it will provide internet access to all Timorese throughout the country, adding the South Submarine Cable will improve the quality of education, boost economic growth, develop tourism sector, etc.

What does the Northwest Cable system mean for Timor-Leste?

The connection to the Northwest Cable System will allow fast and efficient connections to Darwin, Sydney, and Los Angeles, among others. Australia's Ambassador to Timor-Leste, Caitlin Wilson, congratulated the Government of

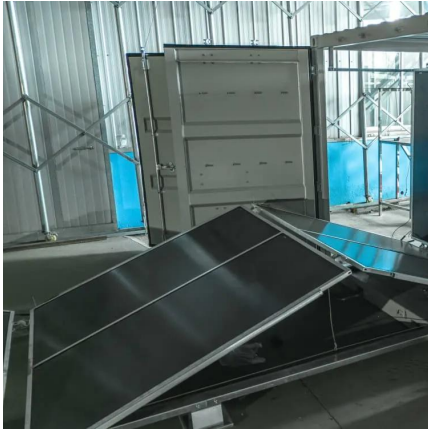

Timor-Leste on this historic milestone.

How will the new infrastructure impact Timor-Leste?

The new infrastructure will significantly reduce latency and increase internet speed, heralding a new era of digital transformation for the country, said Miguel Marques Goncalves Manetelu, Minister of Transport and Communication of Timor-Leste.
