

Egypt Commercial Energy Storage Equipment Manufacturer

Overview

How did EIC become the first energy store in Egypt?

EIC became the first essential source of energy stores in Egypt by leveraging foreign expertise to develop the local market. EIC focused on adopting the latest technologies, including Lithium Batteries and started operating in New Markets like UAE and Portugal.

Who makes electric forklift batteries?

EIC produced the first industrial battery for the electric forklifts using flat plate technology at that time. The Third Generation: Egyptian International Company for Clean Energy Solutions. Recognizing the growing importance of clean energy, EIC shifts focus towards becoming the leading source of energy storage in Egypt.

What makes EIC a great battery company?

EIC is one of the largest companies in the battery field with all types and capabilities in the Middle East, as it is the sole representative of a group of the largest European, American, and British manufacturers of batteries in the world because of its great history in this area.
