

# **Energy storage container assembled house**

## Overview

---

What is a container home?

Visit us to explore our innovative container homes, meet our expert team, and discover the future of sustainable, modular living! Container homes are an eco-friendly alternative to traditional housing. By repurposing shipping containers, they reduce waste and the demand for new building materials.

Are container homes eco-friendly?

Container homes are an eco-friendly alternative to traditional housing. By repurposing shipping containers, they reduce waste and the demand for new building materials. This makes them a sustainable and energy-efficient choice, especially when combined with renewable energy sources like solar panels.

Are container homes sustainable?

Container homes excel in sustainable living features. Modern container home designs incorporate numerous energy-efficient enhancements that help reduce carbon footprints while lowering monthly utility bills.

What is a multi-container custom home?

By customer demand, what started as primarily single-unit container homes has quickly grown to multi-container custom homes. Using a combination of stacked or adjoined 20ft and 40ft containers, we will create your dream home with features like full-sized kitchens, multiple bedrooms, and spacious living areas.

What is a 40 ft container home with solar panels?

The 40' Off Grid Container Home with Solar Panels is designed to be versatile and customizable. You can use it as a cozy home, a vacation home, a backyard office, or anything in between. Its modular design allows you to add more containers to expand your living space. The home also has large windows to provide ample natural light and ventilation.

How long does it take to build a container home?

Standard models can be crafted and delivered in 6-16 weeks. We also offer custom container builds. The Ezra is our original container home model and includes a bathroom, kitchen and bedroom space. Inspired by the home we built on HGTV's Tiny House, Big Living, the Kennedy is a 40FT container home.
