

# **Export prices for solar energy storage systems**

## Overview

---

How much can you get paid for exporting solar panels?

The amount you can get paid for exporting energy from your solar panels varies from a paltry 1p to 40p per kWh. That means that if you've got solar panels, choosing the best export tariff could earn you hundreds of pounds extra in payments every year. Looking at the latest available offers in April 2025, we found that:.

What is the highest export tariff for solar panels?

The highest export tariff currently on offer is the Solar Savings Exclusive tariff from Good Energy, which pays 40p/kWh; however, it's only available to customers who have bought both solar panels and a battery from Good Energy Solar or JPS Renewables. More on: The Smart Export Guarantee explained.

Can solar energy be exported back into the National Grid?

But that excess energy can be used elsewhere, by exporting it back into the National Grid, which then distributes it to wherever it is needed. The good news for solar panel owners is that large energy companies are obliged to pay for the excess energy that is exported under the Smart Export Guarantee (SEG) scheme.

How much does it cost to export electricity?

If you export between 2am and 5am, you'll only be paid about 4.99p per kWh – but if you send your electricity to the grid between 4pm and 7pm, the rate will rocket up to around 29.32p per kWh.

How much does a solar & battery tariff cost?

This tariff offers a 25p per kWh rate – but there are many strings attached. First, you have to pay for a solar & battery installation carried out by either Good Energy Solar or JPS Renewable Energy – which the supplier acquired in

2024 – and sign up to a Good Energy import tariff, too.

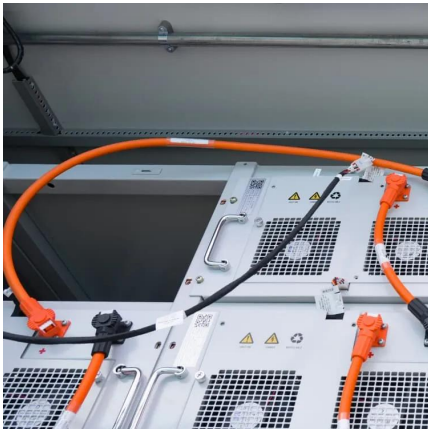

How do I apply for a solar export tariff?

Here are the eligibility criteria: First, fill out the company's online application form. Once you've pressed submit, someone from Good Energy's export tariff team will contact you to discuss the next steps. Or if you don't want to apply online, you can email [solarsavings@goodenergy.co.uk](mailto:solarsavings@goodenergy.co.uk) or call 0345 034 2400 to start the process.
