

Germany Solar Photovoltaic Panel Project

Overview

An innovative solution has been devised to ease the transition from lignite to renewable sources in the traditionally mining-focused Ruhr area: installing solar systems along motorways near the Garzweiler open-pit lignite mine. The pilot project could become a model for the energy transition.

Germany Solar Photovoltaic Panel Project

A Deeper Dive into Solar in Germany

Taking a deeper dive into Germany's ambitious solar PV deployment goals and the financial analysis of modelling different commercial options.
