

Greek energy storage battery import company

Overview

Can a battery storage plant be built in Greece?

An increasing number of local and foreign companies are interested in building energy storage facilities in sun-loving Greece using battery technology. In fact, the Regulatory Authority for Energy (RAE) has been receiving applications for permits concerning battery storage plants.

Are battery storage plants getting a license?

In fact, the Regulatory Authority for Energy (RAE) has been receiving applications for permits concerning battery storage plants. In total, Balkan Green Energy News reported, applications to RAE reached 1.6 GW during October's licensing cycle. This is on top of projects with 23.5 GW in total that were already submitted by over 300 companies.

Will Greek oil refiners be able to transition to climate neutrality?

The Greek oil refiner has announced EUR 4 billion in investments to support its transition to climate neutrality, with a heavy focus on storage and renewables. All these groups now await a ministerial decree that would allow the Independent Power Transmission Operator (IPTO) to provide connection terms.
