

How long is the warranty period for Australia s outdoor communication battery cabinets

Overview

What is a battery storage warranty in Australia?

In Australia, a battery storage warranty is a manufacturer's guarantee on the lifespan and performance of a battery. As soon as a manufacturer states this, your battery magically gets a 20-year warranty, regardless of the warranty document's specifics.

How long does a battery last in Australia?

When a battery seller claims a battery should last 20 years, it often comes with a 20 year warranty in Australia.

Does a home battery get a 20 year warranty in Australia?

As soon as a battery manufacturer claims this, your battery magically gets a 20-year warranty in Australia. However, it's essential to check the warranty document to confirm this.

Are home battery systems covered by Australia's Consumer Guarantees?

Yes, any home battery systems sold by a business are automatically covered by Australia's consumer guarantees. Express warranties are any additional promises made about the performance of the product, whether written or verbal.

Is the residential battery industry giving away extended warranties?

Currently, the residential battery industry is giving away extended warranties too easily, leading to potential issues down the line. Consumers may take companies to court if systems they believed would last 20 years stop working after only 12 years.

How long does a battery last under warranty?

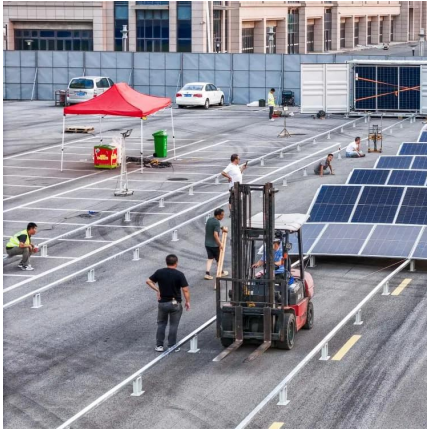

This defines the number of full charge/discharge cycles a battery can perform

under warranty. A common figure is 6,000 cycles, which equates to about 16 years if used once per day. However, warranties usually end when either the cycle count or the years are reached — whichever is sooner. 3. Throughput Warranty
