

How much does a German photovoltaic panel cost per square meter

Overview

What is the average price of solar photovoltaics in Germany?

The average grid price of solar photovoltaics (PV) in Germany was approximately 51 US dollars per megawatt hour in 2019, compared to 26 US dollars in Spain.

How much does a rooftop PV system cost in Germany?

From pv magazine Germany The average system price for rooftop PV systems in German single-family homes with and without battery storage rose by around 10% to €1,557 (\$1,711)/kW in the second quarter of 2023, in comparison with the first quarter of the year. The prices are 21.9% higher than the second quarter of 2022 when they stood at €1,277/kW.

What is the German solar battery storage price monitoring?

The German Solar Battery Storage Price Monitoring summarizes price data of the most important battery storage market segments. To that end, EuPD Research interviews 80 solar installation companies and summarizes developments in a price index. In addition, the following data is gathered in the German Solar Battery Storage Price Monitoring:

What data is gathered in the German PV price monitoring?

The data stems from interviews with solar installation companies and an evaluation of offers made to end consumers on online portals. The following data is gathered in the German PV Price Monitoring: Split of turn key costs of < 30 kWp rooftop systems in different cost components.

What percentage of electricity is generated by photovoltaics in Germany?

With an electricity generation of 72.6 TWh in 2024, photovoltaics covered nearly 14 per-cent of gross electricity consumption [AGEE] in Germany (Figure 3). All renewable energies (RE) together came to 53 percent. Figure 3: Development of the share of renewable energies in gross electricity

consumption in Germany [ISE4], Status 12.03.2025 [AGEE].

How does EUPD research collect PV price data?

EuPD Research gathers price data for PV modules and PV systems for BSW Solar on a quarterly basis. The data stems from interviews with solar installation companies and an evaluation of offers made to end consumers on online portals. The following data is gathered in the German PV Price Monitoring:
