

# **Huawei Australia energy storage equipment**

## Overview

---

Does Huawei offer solar energy storage?

Huawei entered the solar energy market with the offering of their Luna2000 battery storage system. Huawei's LUNA energy storage system offers a system that can be coupled with any Huawei inverter. 1) Flexible Modular Design The Luna2000 battery has a modular design and can be scaled based on your energy storage needs.

Which solar storage system should I use with a Huawei inverter?

The perfect solar storage solution to couple with any Huawei inverter, the Huawei LUNA is here. Built as an adaptable and modular storage system, the Huawei LUNA has the unique benefit of being able to scale to fit your home's energy needs.

Is Huawei a good energy company?

Their systems and apps are all designed to work alongside one another, making Huawei a fantastic company to go with if you are looking for a complete energy solution. As of October 2020, Solar is now officially cheaper than coal and is set to stay that way. Going forward expect most large scale energy plants that get built to be solar plants.

How long does a Huawei battery last in Australia?

Compare quotes from up to 7 installers in your area now. Like most battery solutions in Australia Huawei offer a 10 year warranty for their battery. For each 5kWh module there is a life cycle power discharge of 16.45MWh stated in the warranty document with an estimated 60% capacity at end of life.

What are the features of Huawei's new battery?

There are a number of features of the Huawei's new battery worth mentioning: Like many battery solutions on the market Huawei have opted for a modular design for their batteries – this enables greater scale in production

and more flexibility for consumers.

What is energy storage system products list?

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.
