

# Huijue Power Station generates electricity

## Overview

---

Enter the Huijue Water Storage Power Station – a pumped storage hydropower (PSH) facility that’s basically a mountain-sized water battery. This engineering feat isn’t just about generating electricity; it’s about smart energy management for our era of climate uncertainty.

## Huijue Power Station generates electricity

---

### Container base station energy room

Container-type energy base station: It is a large-scale outdoor base station, which is used in scenarios such as communication base stations, smart cities, transportation, power systems ...
