

Hungarian Outdoor Power Lithium Battery Company

Overview

Why are EV traction batteries made in Hungary?

Over the last years, many of the leader EV traction battery manufacturers and their suppliers chose Hungary as the location of their newly established manufacturing plants. This is in line with the goal of the Hungarian government to become one of the main battery producer countries not only in Europe, but also at global level.

Should Hungary invest in EV battery plants?

Within the European Union, Hungary puts a particularly high stake on EV battery plants, in the hope that it will find itself among the leading countries of an emerging industry within a few years. Commitment to green mobility is not the only motivation for attracting large battery manufacturers to the small Central European country.

How many GWh a year does a battery produce in Hungary?

Indeed, by November 2023, battery production capacity in Hungary reportedly already reached 87 GWh/year, not including the newest SK Innovation plant, which is expected to begin production soon and to provide an additional output of 30 GWh/year alone when operating on full throttle.

What is the Hungarian battery Association?

The Hungarian Battery Association was established to support the development of the Hungarian battery industry, facilitate its integration into European and Hungarian markets, and represent the stakeholders of the Hungarian battery value chain.

Will CATL build a new battery plant in Germany?

[Sign up here](#). The new site would dwarf CATL's existing European battery production facility in the German state of Thuringia, with a planned annual production capacity of 100 gigawatt-hours and a 9,000-strong workforce.

How much money will Hungary invest in a new plant?

When officially announcing the new plant's arrival in June 2023, Péter Szijjártó, minister of foreign affairs and trade of Hungary stated that the total value of the investment is 10 billion HUF (nearly 27 million euros), with a financial support of 1 billion HUF from the Hungarian government. The initial plans include a workforce of 100 people.
