

Indonesian military communication base station inverter

Overview

Is constructing base stations a major challenge in Indonesia?

Latest Industry News: Indosat Business Announces Advanced AI Solutions for Indonesia's Oil and Gas Sector Yulis Widyo Marfiah, the acting Director of Telecommunications and Information Services at BAKTI, explained to Antara that constructing base stations in such areas is a major challenge.

Which region in Indonesia has the most challenges for telecom infrastructure deployment?

She highlighted that the security and geography in eastern Indonesia, especially in the Papua province, presents the most difficulties for telecom infrastructure deployment.

Does Indonesia have a mobile network?

Indonesia is made up of around 17,500 islands, of which around a third (6,000) are inhabited, but much of the country has challenging terrain meaning it's difficult to deploy vast mobile coverage. According to BAKTI, the initiative aims to bridge the digital gap in the country, providing cellular coverage to some of the most remote regions.

How much money did Indosat invest in 2023?

In 2023, Indosat invested around \$800 million (IDR13bn) in capital expenditure, around 60 percent of this being spent to strengthen our network in rural Indonesia. We are continuing this investment in 2024."

Why are network operators investing in rural areas in Indonesia?

Network operators in Indonesia have also been pushing their investment in rural areas of the country. Indosat CEO Vikram Sinha told DCD earlier this year that since Ooredoo Indosat and Hutchison Asia Telecom Group merged to create Indosat Ooredoo Hutchison (IOH), the company has been able to plug gaps in its coverage.
