

Is it necessary to buy a branded outdoor power supply

Overview

Should you buy a power supply from a reputable brand?

Unbranded power supplies often have no warranty or a very short warranty, while power supplies from reputable brands typically have a warranty of 5-10 years. That's why it's important to buy a power supply from a reputable brand. Which Power Supply Brand To Choose?

.

How to choose a power supply?

It is always recommended to choose a Power Supply from a reputed brand because most of their PSUs come with superior internal components, work more efficiently, and provide various safety features. But it's also crucial to look at the details of a specific Power Supply Unit (PSU) before you make a purchase.

What are the best power supply brands?

Some of the best power supply brands include Corsair, Cooler Master, Enermax, Asus, Antec, be quiet!, Seasonic, Silverstone, and EVGA. Let's talk about which brand to choose from each of these different power supply options. Corsair: Corsair is a very famous and well-respected brand for making Power Supplies.

Should I buy a cheap power supply?

Typically, power supplies with relatively equal specifications, the heavier one is the best. Also, the answer to this question is subjective. If you're willing to accept down time and/or crashes, then by all means go cheap. I've read the Google used to use cheap computers for their server farm and programmed expecting systems to fail.

How long does a power supply last?

The lifespan of a power supply is an important factor to consider when buying one, as it gives us the confidence to choose a brand that we can trust for the long term. Unbranded power supplies often have no warranty or a very short warranty, while power supplies from reputable brands typically have a warranty of 5-10 years.

Should I buy a generic PSU or a branded PSU?

I've always used generic ones only because of the huge price gap (where I live, branded PSUs start at about 5 times the price of a generic one). Generic PSUs generally work fine for about 8-12 months (they used to last longer a few years ago), then they start making noises and finally break. When they do, I just change them and keep going.
