

# **Japanese price solar water pump inverter**

## Overview

---

What is a solar pump inverter?

Solar Pump Inverter Solar pumping system is a series-parallel absorb sunlight radiation energy through solar panels and convert DC into AC power by inverter to drive centrifugal pump, axial flow pump, mixed-flow pump of deep well water pump system.

What is veichi solar water pump inverter?

- Constant pressure water supply solution. VEICHI solar water pump inverter is a high-efficiency solar water pump controller which can make full use of solar energy to drive water pumps for agricultural irrigation, water supply system, fountains, groundwater lowering and etc.
- Ingenious design -- small and exquisite inverter modules;

Which solar water pump inverter is best?

With modular design and IP65 protection, VEICHI SI30 solar water pump inverter is highly praised by customers. SI22 solar water pump inverter is cost-effective and economical, small and exquisite, palm-sized, greatly saving installation space and transportation costs.

How does a solar pumping system work?

Solar pumping system converts solar energy directly into electric energy, and then drives motors to drive water pumps to pump water from deep wells, rivers, lakes and other water sources. The system consists of solar panels, solar pump inverter and water pump.

Which solar water pumping controller is best?

As the solar water pumping system is eco-friendly and economical, VEICHI SI series solar pumping controllers of high MPPT efficiency have been widely used in many areas such as Africa, India, Middle East, Southeast Asia, South Asia, America and more areas.

What are the advantages of a water pump inverter?

- Single-phase pump: easy to get electricity, home use. When the pump impeller is blocked due to sediment, the inverter has built-in water pump cleaning function, which can clean foreign matter and impurities in the water pump with one button.
- Remote control, real-time monitoring offline/online storage, data analysis, high accuracy positioning;

## Japanese price solar water pump inverter
