

# **Lebanon Smart Solar Power Generation System**

## Overview

---

Why is solar power so popular in Lebanon?

That goal of encouraging renewable energy in Lebanon has been aided by the fact that solar power is now the most affordable way to generate electricity around the world. The cost has dropped by more than 90% over the past decade, thanks to rapid technology gains and a glut in solar-panel production.

How many solar companies are there in Lebanon?

ME Green was one of the early solar-power companies in Lebanon, but the sector has ballooned, from around 150 registered businesses in 2020 to more than 800 today, according to the LCEC's Khoury. These companies work on everything from small household systems—which start at \$2,000 to \$3,500—to projects involving hundreds of panels or more.

Where are solar panels located in Lebanon?

Atop several campus buildings at Sagesse University in Furn El-Chebbak, a suburb southeast of Beirut, row upon row of solar panels gleam under the bright afternoon sun. The Catholic university, home to some 3,500 students, is one of the many organizations in Lebanon that have turned to solar power.

Are Lebanon's solar companies paying a lot for fuel?

We are also paying a lot for fuel.” ME Green was one of the early solar-power companies in Lebanon, but the sector has ballooned, from around 150 registered businesses in 2020 to more than 800 today, according to the LCEC's Khoury.

How much solar power will Lebanon have in 2022?

Over 650 megawatts (MW) were installed in 2022 alone, says El-Khoury, bringing Lebanon's total solar capacity to 870MW, according to his figures. "Installed capacity should reach 1,000MW in June ," he says. He estimates that the installed capacity of diesel generators, meanwhile, likely amounts to

1,000-1,500MW.

Are the mazlouns in Lebanon getting solar panels?

The Mazlouns are hardly alone in Lebanon. Solar panels have been cropping up across the country over the past two years, from the rooftops of rural households to urban apartments, and from atop family-run businesses to buildings housing national and multinational organizations.
