

# Malta photovoltaic panels

## Overview

---

Are solar panels a good investment in Malta?

We can't stress enough how good of an investment home and commercial solar systems are in Malta. The island has an extremely high sunshine yield, and the right solar system can drastically reduce your electricity bills.

How many PV installations are there in Malta?

The stock of PV installations amounted to 34,955 of which 85.6 per cent were installed in the region of Malta and 14.4 per cent were in the Gozo and Comino region. The Northern Harbour and Western districts accounted for 37.5 per cent of the total stock of PV installations with 6,848 and 6,270 installations respectively.

Why should you choose SunPower solar panels in Malta?

SunPower solar panels in Malta are the best in Malta and the world. They can help you reduce your electricity bills and carbon footprint while providing a sustainable lifestyle for years to come.

What can I do with a photovoltaic panel?

At Alternative Technologies Ltd., we specialize in photovoltaic panels for residential and commercial installations. These panels can be used for generating electricity from sunlight. We also offer solar water heaters, inverters, and storage systems to help manage your energy production.

What is a photovoltaic system?

Photovoltaic (PV) system: A complete set of components for converting solar radiation into electricity by the photovoltaic process, including the array/s of photovoltaic modules that collect and absorb sunlight for conversion into electricity, inverter/s and associated balance of system components.
