

Middle East lithium battery manufacturer

Overview

What is Middle East Battery Company?

Middle East Battery Company has the latest and largest advanced technology plant in the region engaged in manufacturing automotive sealed maintenance free batteries for all types of cars. The plant was constructed in 1997, and it's the only plant in the region producing ACDelco maintenance free batteries. [Read More Shareholders.](#)

What is lithium used for?

Lithium is majorly used in battery applications for the production of lithium batteries. The battery application segment accounted for the largest share of the Middle-East and North Africa lithium market in 2019. Lithium batteries can be categorized into two segments, namely, disposable and rechargeable.

Why are lithium ion batteries so important?

The demand for lithium-ion battery is expanding rapidly due to the growing adoption of electric vehicles and renewable energy solutions. These batteries are essential for EVs, grid storage, and mobile devices, aligning with the nation's sustainability goals. However, finding the right lithium ion battery supplier is challenging.

What are the different types of lithium batteries?

Lithium batteries can be categorized into two segments, namely, disposable and rechargeable. Disposable lithium batteries use lithium in the metallic form as an anode. These batteries have a long life (high charge density) when compared to other standard batteries.
