

Morocco Solar Power Photovoltaic System

Overview

Solar power in Morocco is enabled by the country having one of the highest rates of solar among other countries— about 3,000 hours per year of sunshine but up to 3,600 hours in the desert. has launched one of the world's largest solar energy projects costing an estimated \$9 billion. The aim of the project was to create 2,000 megawatts of solar generation capacity by 202.
