

# **New Zealand solar sun room manufacturer**

## Overview

---

What is a solarium-style sunroom?

Solarium-style sunrooms, for instance, feature a high percentage of glass and often include a glass roof. They provide a breathtaking view of the sky and surrounding landscapes. A sunroom is a customisable, year-round living space that harmoniously combines the comforts of indoor living with the rejuvenating beauty of the outdoors.

Why should you buy a sunroom?

The sunroom is made for you. Each piece of material is perfectly cut to size to avoid any raindrops. The sliding doors and windows allow you to breathe fresh air. All in all, the sunroom gives you more room to relax and enjoy the outdoors without compromising comfort and privacy.

What makes a sunroom unique?

The hallmark of a sunroom is its ability to seamlessly blend the comforts of indoor living with the beauty of the outdoors. The architectural design of sunroom varies widely, allowing homeowners to choose styles that complement their existing homes or reflect personal preferences. These spaces use building materials such as wood, aluminium, or PVC.

What materials does constant sunroom use?

Our materials consists of polycarbonate boards, tempered glass and aluminum beams, which can be customised to your liking! Send us a message about which product you are after and we'll respond ASAP. Constant Sunroom provides professional installations of retractable sunrooms, canopies, pool covers and outdoor blinds. Based in Auckland.

Why should you choose a custom-designed sunroom?

Products Sunrooms Get a Free Quote Unlock Year-Round Comfort with Your Personalised Sunroom Imagine a space bathed in natural light, where you can

bask in warmth and enjoy the beauty of your surroundings, regardless of the season. That's the promise of a custom-designed sunroom, your personal oasis for relaxation.
