

Norway 5G Base Station Communication Project

Overview

Why is 5G so important in Norway?

“Norway has some of the world’s fastest mobile networks, and with 5G, they become faster and even more reliable. Given the current situation in Norway, we see how important the digital infrastructure is for those quarantined and those working from home.

How many 5G mobile devices are connected to Telia's network in Norway?

Today, 1.6 million 5G mobile devices are already connected to Telia’s network in Norway, with many customers accessing the internet solely through 5G wireless broadband. 5G’s Norwegian numbers tell their own story.

Who is Telia's technology partner for the Norwegian 5G rollout?

Ericsson is Telia’s technology partner for the Norwegian 5G rollout. In parallel, Telia is upgrading its 4G network across the country, further increasing speed and coverage while doubling capacity. Filed Under: 4G / 5G, 5G, 5G Network, Comms, Ericsson, internet, Wireless.

Is 5G the start of the future?

In the Arctic city of Tromsø, to give just one example, the combination of 5G and 4G has boosted average download speeds by 375 per cent, and mobile data usage is up by 900 per cent since 2019. Stein-Erik Vellan, Head of Telia Norway, commented, “A national 5G network is only the start of the future.
