

# **Photovoltaic energy storage cabinet installation in Indonesia**

## Overview

---

Will Indonesia deploy 100 GW of solar?

The Indonesian government has revealed a new initiative aiming to deploy 100 GW of solar. The distributed solar for energy self-sufficiency program encompasses 80 GW of solar that will be deployed as 1 MW solar arrays with 4 MWh of accompanying battery energy storage systems (BESS).

Can solar energy be a strategy to meet Indonesia's energy goals?

Solar energy can be a strategy to meet this target," said Deon Arinaldo, Program Manager of Energy System Transformation, at the launch of the Indonesia Solar Energy Outlook 2025 study report – Breaking the Walls: The Future of Indonesia's Solar Energy and Energy Storage Innovations (15/10/2024).

Is solar-plus-Bess cheaper than diesel power plants in Indonesia?

Fabby Tumiwa, Chief Executive Officer of the Jakarta-based Institute for Essential Services Reform (IESR), told pv magazine that solar-plus-BESS generates cheaper electricity than the diesel power plants that power villages and remote islands in Indonesia.

Why should you choose a solar-fed battery storage system?

If you are off the grid entirely, or if the grid power supply proves to be not reliable enough, a solar-fed battery storage system is a simple and cost-effective alternative to a dirty and cumbersome diesel-fired genset. We can offer you attractive return on investments, while you can benefit from hassle-free and green power. smart & sustainable?

.

Is energy storage a sidekick of VRE integration?

"The price of energy storage has also continued to decline, so that it is no

longer an additional component (sidekick) of VRE integration, and currently globally there are 88 GW of energy storage (project) capacity under development,” said Bintang.

## Photovoltaic energy storage cabinet installation in Indonesia

---

### [Indonesia Clean Energy Battery Storage System](#)

There is growing market potential for Battery Energy Storage System (BESS) solutions for solar and wind energy in Indonesia.
