

Quote for PV container substation in Ireland

Overview

How much does a solar PV system cost in Ireland?

A solar PV system costs between €4,600 – €8,700 in Ireland in 2025 with the SEAI grant. The exact price will depend on the number and type of solar panels used. You can expect the peak solar output of your solar PV system to be between 1.76kWp to 7.04kWp.

Are photovoltaic panels a good investment in Ireland?

Photovoltaic panels can help homeowners and businesses save money on electricity bills by generating clean, renewable energy. The ROI for renewable energy in Ireland depends on the size and cost of the system and the amount of power generated and used. Here's a breakdown of potential savings and earnings for different system sizes:.

Is battery storage cost-effective versus feed-in tariff?

The cost-effectiveness of battery storage versus feed-in tariff depends on several factors, such as: feed-in tariff rate. Before the Clean Export Guarantee was introduced in 2022, homes fitted with solar panels exported surplus electricity to the national grid for free.
