Saudi companies in Saudi Arabia launched 7 new Solar power projects as a part of Saudi Arabia's vision 2030. These projects will diversify the economy and reduce the reliance on fossil fuels, thus proving to be reliable renewable energy sources.

How will Modon's solar plant help Saudi Arabia's non-oil export market?

The 170,000 square metre complex, supplied by Modon, will include 2GW of solar modules and 3GW of solar cell production lines. Desert Technologies said last week that the solar modules produced at the plant would meet growing

local demand for solar solutions and strengthen Saudi Arabia's position in global non-oil export markets.

How can Saudi Arabia boost its green energy expansion?

The initiative is the latest in a series of projects announced in recent months that aim to localise manufacturing technologies to boost Saudi Arabia's green energy expansion. The projects include the construction of manufacturing facilities for solar panels and wind turbines, as well as battery energy storage systems (BESS).
