

# **Selling solar integrated devices for home use**

## Overview

---

Should you sell solar panels?

Solar panel sales have grown significantly in recent years due to the increase in public awareness of the environmental and economic benefits of solar energy. If you are selling solar panels, there are a few things you need to keep in mind to be successful:

Can you sell solar energy back to the grid?

This two-way relationship between your property and the electrical grid makes selling solar power possible. Here's how it works: The most common method for selling solar energy back to the grid is through net metering. Simply put, net metering allows your electric meter to "run backward" when you produce more energy than you use.

Should you sell your home if you have a solar system?

"Most homeowners will be able to recoup the current value of their solar system when they sell their house," says Lane. In a review she conducted of over 400 home listings, she found that solar-equipped homes sold for 6.8% more than comparable homes without.

Can you sell solar power without battery storage?

Without battery storage, this excess electricity flows back into the utility grid for other customers to use. This two-way relationship between your property and the electrical grid makes selling solar power possible. Here's how it works: The most common method for selling solar energy back to the grid is through net metering.

Can a battery system help you sell solar energy?

Battery systems can significantly enhance your ability to profit from selling solar energy by: The National Renewable Energy Laboratory (NREL) reports that adding battery storage to a solar system can increase the value of that

system by 15% or more in many markets. Proper maintenance ensures your system generates maximum power:.

How to sell solar products & services?

Going door to door to do solar sales pitch to sell your products and services is called door to door sales process. This is one of the most effective ways to sell solar products. It is also one of the most difficult and time-consuming methods but can be very rewarding.
