

Sierra Leone power generation container manufacturer

Overview

How many mini-grid sites are being built in Sierra Leone in 2024?

In 2024, Sierra Leone is constructing and commissioning 17 of these mini-grid sites (800 kW). This work is made possible with the support of Sustainable Energy 4 All's Universal Energy Facility. Power Leone Power Leone, founded in 2018, is Energicity's Sierra Leonean subsidiary Power Leone stands as the cornerstone of Energicity's operations.

What is power Leone?

Power Leone stands as the cornerstone of Energicity's operations. With solar mini grids established in 30 communities, we bring reliable and sustainable power to over 7,000 customers. Sierra Leone Rural Renewable Energy Project.

How much money will DFC invest in Sierra Leone's power project?

DFC's financing also includes approximately \$120 million in political risk insurance to bring in private investment to the project, which would be the first utility-scale, independent power project in Sierra Leone.

Why does Sierra Leone need infrastructure investment?

The Government of Sierra Leone is also seeking infrastructure investment to support expansion of energy distribution and transmission networks. Sierra Leone has good access to natural resources necessary for energy production such as access to viable wind speeds and sunshine for renewable wind and solar projects.

Why is solar power so expensive in Sierra Leone?

It is delivered at a very high cost with Sierra Leone having one of the highest electricity tariffs in the sub-region. There are numerous waterfalls for hydropower and abundant sunlight for solar power generation with an estimated hydro project potential of more than 1000MW, while solar opportunities are above 240 MW.

What investment opportunities does Sierra Leone offer?

Sierra Leone offers investment opportunities in several segments of the energy industry including wind energy, solar energy, hydro, and bioenergy. The Government of Sierra Leone is also seeking infrastructure investment to support expansion of energy distribution and transmission networks.
