

Solar panel export tariffs

Overview

What are solar export tariffs?

At first, solar export tariffs were created in response to the government launching the Smart Export Guarantee (SEG) in 2020. This initiative compels energy suppliers with 150,000 customers or more to pay households for any renewable energy – including solar electricity – they export to the grid.

What are the requirements for a solar export tariff?

To sign up for a solar export tariff, you'll always need to have a smart meter, as well as documents that prove you own a certified, permitted solar installation.

How much can you get paid for exporting solar panels?

The amount you can get paid for exporting energy from your solar panels varies from a paltry 1p to 40p per kWh. That means that if you've got solar panels, choosing the best export tariff could earn you hundreds of pounds extra in payments every year. Looking at the latest available offers in April 2025, we found that:.

How much does a solar & battery tariff cost?

This tariff offers a 25p per kWh rate – but there are many strings attached. First, you have to pay for a solar & battery installation carried out by either Good Energy Solar or JPS Renewable Energy – which the supplier acquired in 2024 – and sign up to a Good Energy import tariff, too.

Do solar panels have to pay for excess energy?

The good news for solar panel owners is that large energy companies are obliged to pay for the excess energy that is exported under the Smart Export Guarantee (SEG) scheme. What is the Smart Export Guarantee?

.

How do I apply for a solar export tariff?

Here are the eligibility criteria: First, fill out the company's online application form. Once you've pressed submit, someone from Good Energy's export tariff team will contact you to discuss the next steps. Or if you don't want to apply online, you can email solarsavings@goodenergy.co.uk or call 0345 034 2400 to start the process.
