

Solar photovoltaic panel subsidies in Sao Tome and Principe

Overview

Are there any studies on solar power potential in Sao Tome & Principe?

2. Solar PV: As per the publication “Emission Reduction Profile: Sao Tome and Principe”, June 2013” prepared by RISO with the support of ACP-MEA & UNFCCC, there are, to date, “no official studies on the exact solar power potential: therefore, further calculations of the emissions reduction potential can be hazardous”.

Where will solar power plants be installed in so Tomé?

The company will collaborate with the public utility Power and Water Company (EMAE) to install solar power plants across the country. The first phase of the program will include the installation of solar PV plants at the São Tomé international airport, as well as on the island of Príncipe, with capacities of 1.1 kW and 300 kW, respectively.

Who is Pleno Ambiente STP?

Cleanwatts’ local partner Pleno Ambiente STP will undertake the installation, operation, and maintenance works. The new deal will go a long way towards revolutionizing São Tomé and Príncipe’s relationship with energy, along with addressing gaps in affordability and security of supply.
