

The image is a horizontal composite. The left half is a close-up photograph of a grey metal structure, likely part of a solar panel's mounting or junction box. A black cable with a red stripe is connected to a terminal labeled '15'. Another cable, labeled '2N', is connected to a terminal labeled '2FM'. The right half is a landscape photograph of a solar farm. In the foreground, rows of solar panels are visible, partially covered in snow. In the middle ground, there are some small buildings and bare trees. The background features a range of snow-capped mountains under a clear sky.

Southeast Asia s new energy storage cabin firefighting equipment

Jinko ESS to Deploy 10MWh Energy Storage System in Southeast Asia

Jinko ESS has secured a 10MWh energy storage project in Southeast Asia region, and will deploy a 10MWh off-grid energy storage system to provide reliable renewable power ...
