

# **Tender for 5G communication base stations**

## Overview

---

What are the biggest 5G base station contracts awarded this year?

The China Mobile tender represents the biggest 5G base station contracts awarded this year.

How many 5G base stations will China Mobile have this year?

China Mobile plans to operate more than 1.6 million 5G base stations this year, with 360,000 new additions. It aims to increase its number of cloud servers by more than 240,000 units and add 40,000 external data center racks. Editor: Emmi Laine.

How much will Huawei buy China mobile's 5G base station?

Huawei secured 52 per cent of China Mobile's 5G base station work, the largest portion of the contracts put out for tender this year. The deal would involve the sale of 45,426 5G base stations worth about 4.1 billion yuan (US\$574 million), according to calculations by the South China Morning Post using bid details published by China Mobile.

Which companies have been awarded a 5G contract?

Smaller contracts were also awarded to Datang Mobile Communications Equipment, Ericsson, and Nokia Shanghai Bell. China Mobile plans to operate more than 1.6 million 5G base stations this year, increase its number of cloud servers by more than 240,000 units, and add 40,000 external data center racks.

Who is responsible for 5G tender selection?

DNB which is the special purpose vehicle (SPV) that will undertake deployment of the 5G infrastructure and network nationwide is responsible for the tender selection, he said. He said 5G commercial services would be made available by the fourth quarter (Q4) of 2021.

## Will Huawei's 5G deal bolster China's core revenue base?

Huawei Technologies will supply over half of the 5G base stations for China's top telecoms company China Mobile between 2023 and 2024, a deal which analysts say will help shore up its core revenue base after losing its lucrative smartphone business amid tough US sanctions.
