

Uruguayan double-glass photovoltaic module manufacturer

Overview

What solar equipment is available in Uruguay?

Uruguay's solar equipment production and supply capacity There are a substantial number of local and foreign solar equipment suppliers working within Uruguay's solar market. The most common products available in Uruguay include solar panels, solar inverters, and charge controllers, to name a few.

Does Uruguay have a solar market?

Uruguay's solar market prospects are likely to get better owing to the government's overwhelming support. In 2013, the government of Uruguay drafted several laws aimed at supporting the solar sector. Such favorable regulations are the main driving factors behind the growth of Uruguay's solar market.

How much solar power does Uruguay have?

As of last year, the country's overall installed solar capacity stood at approximately 248 Megawatts. This capacity accounts for 2% of the country's total energy production. Uruguay's solar market prospects are likely to get better owing to the government's overwhelming support.

Why should you choose a solar project in Uruguay?

Uruguay boasts of eight advanced ports that allow the movement of solar equipment from one market to another. Its logistics sector is also among one of the leading ones worldwide. Consequently, you don't have to worry about transporting your equipment from the port to the project site if the need arises.

Who is Emirates insolaire & Vikram Solar?

Established in 2013 in Dubai, U.A.E., Emirates Insolaire LLC is a joint venture of Dubai Investments PJSC and SwissINSO Inc. that specializes in the

manufacturing of solar products. Vikram Solar. Formerly known as Vikram Solar Pvt. Ltd. is a company that specializes in high-efficiency PV module manufacturing comprehensive solutions.

What is a glass-glass solar panel?

Glass-glass module structures (Glass Glass or Double Glass) is a technology that uses a glass layer on the back of the modules instead of the traditional polymer backsheet. Originally double-glass solar panels were heavy and expensive, allowing the lighter polymer backing panels to gain most of the market share. Thanks to producers such as:

Uruguayan double-glass photovoltaic module manufacturer

Glass-Glass Solar Panel Technology

Double Glass is especially important in photovoltaic facilities such as solar power plants and with the expected long service life of modules such as AKCOME, ...
