

# **Uzbekistan Pumped Storage Photovoltaic Power Station**

## Overview

---

Where will Uzbekistan's pumped storage power plant be located?

The planned pumped storage power plant will be in the Bostanlyk district of the Tashkent region. As envisioned by the French state-owned company, which is also the world's largest nuclear power plant operator, and Uzbekhydroenergo, it will be the first installation of floating solar stations on reservoirs in Uzbekistan.

Will Uzbekistan fund a 250-megawatt solar photovoltaic plant?

TASHKENT, May 21, 2024 — The World Bank Group, Abu Dhabi Future Energy Company PJSC (Masdar), and the Government of Uzbekistan have signed a financial package to fund a 250-megawatt (MW) solar photovoltaic plant with a 63-MW battery energy storage system (BESS).

How many kilowatts a thermal power plant produces in Uzbekistan?

In 2018, the power plants of Thermal Power Plants JSC generated 56.3 billion kilowatts of electricity and released 7.5 million Gcal of thermal energy. The total installed capacity of power plants in Uzbekistan is more than 14,000 MW.

How much power will Uzbekistan's new power plant provide?

This new plant will have capacity equivalent to 8% of Uzbekistan's total generation capability and will be able to meet 15% of the country's overall power demand when complete.

Will EDF and Uzbekistan create a 200MW pumped-hydro plant?

French power generation company EDF and Uzbekistan's state hydropower producer, Uzbekhydroenergo, are planning to sign a formal memorandum of understanding and create a 200MW pumped-hydro facility along with floating PV plants in Uzbekistan.
