

Western European outdoor power supply processing manufacturer

Overview

What is the European power supplies Manufacturers' Association (UKEiG)?

The European Power Supplies Manufacturers' Association UKEiG was formed in 1995 to represent the specialist needs of the power supply industry in Europe. The association currently has around 25 members from ten countries, employing over 8,000 people and with combined global revenues exceeding 5 billion Euros. Our mission statement:.

What should you know about the power supply industry in Germany?

The Power Supply industry in Germany is characterized by several key considerations that potential entrants should be aware of. Regulatory frameworks are stringent, with the European Union's directives on energy efficiency and sustainability greatly influencing operations.

How many external power supplies are there in the EU?

In 2020, 1.7 billion external power supplies (EPS) were in use in the EU27, of which 75% for residential use, on average 6.5 units per EU household. They converted 48 TWh/a of electricity from the 220V mains to the input needed by the powered products.
