

What is the price of Huawei s energy storage project

Overview

How much money does Huawei invest in the Red Sea project?

It is built with a registered capital of RMB 3 billion (468 million USD) and has Hu Houkun, Deputy Chairman of Huawei as its legal representative. Huawei signed a key contract for The Red Sea Project with 1300 MWh battery energy storage solution (BESS) - the world's largest energy storage projects.

Is Huawei preparing for energy storage in 2021?

In July 2021, Huawei filed an energy storage system patent that was publicly shared on July 9th in China. This patent targets to normalize the hardware architecture and provides convenient maintenance with reduces costs. We can see the company has a long time preparation for the energy storage which is now gradually starting to implement in actual.

Who is responsible for Huawei energy storage system?

Among them, the ACWA Power will be responsible for the developer's part while Shandong Power will provide the EPC (Engineering, Procurement, and Construction) supplies. In July 2021, Huawei filed an energy storage system patent that was publicly shared on July 9th in China.

Will Huawei provide a 1300 MWh Bess to the Red Sea project?

The company will provide a 1,300MWh BESS to the Red Sea Project, a huge resort under construction on the Saudi Arabian coast, Huawei said during its corporate Global Digital Power Summit 2021 held last week in Dubai, United Arab Emirates.

What is the Red Sea New City Energy Storage Project?

Furthermore, the media reports reveal that the Red Sea New City Energy Storage Project is one of the major highlights of the "Vision 2030" blueprint drafted by Saudi Arabia. In addition, the city is situated near the coast of the Red Sea that provides a suitable geographical environment to extract

electricity energy resources.
