

Where can I charge outdoor power supplies in Moldova

Overview

Do I need a travel adapter for a Moldova Charger?

However, it is possible you'll need an adapter to plug the charger into a Moldova outlet. Moldova uses electrical outlets and power plugs of types C & F (see images). If your country uses the same electrical outlets and power plugs, you don't need a travel adapter. Are the electrical outlets and power plugs in your country different?

.

Are there electrical outlets in Moldova?

No, the electrical outlets in Moldova are different from those in the United States. In Moldova electrical outlets of types C & F are used, while the United States has electrical outlets of types A & B. Do I need a travel adapter for Moldova?

The electrical outlets and power plugs in Moldova are of types C & F (see images).

Can I use a phone charger in Moldova?

Chargers for iPhones, Android phones and other smartphones or cell phones are usually dual voltage, so you can use them all over the world. However, it is possible you'll need an adapter to plug the charger into a Moldova outlet. Moldova uses electrical outlets and power plugs of types C & F (see images).

Can I connect my laptop charger to an electrical outlet in Moldova?

Yes, you can connect your laptop charger to an electrical outlet in Moldova as long as the outlet is compatible with the charger's voltage and plug type. In Moldova, the standard voltage is 220V and the standard frequency is 50Hz.

What is the standard voltage for power sockets in Moldova?

All power sockets in Moldova provide a standard voltage of 220V with a standard frequency of 50Hz. You can use all your equipment in Moldova if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia.

Do I need a voltage converter in Moldova?

The voltage used in Moldova is 220V and the frequency is 50Hz. If this is the same in your own country, you don't need a voltage converter when travelling to Moldova. If the voltage and/or frequency in your country is different, you should check if your devices are dual voltage.
