

# **Which companies manufacture outdoor communication battery cabinets in Georgia**

## Overview

---

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

What are the different types of battery backup cabinets?

Battery strings can be disconnected and moved with minimal to no network disruption. 12V Battery Backup (BBU) cabinets ideal when a large battery backup is required. Composite Pads (CPAD) have replaced poured-in-place or pre-cast concrete pads because they enable more rapid network deployment.

Can a walk-in cabinet be built from the factory?

The cabinet lineup can be built and shipped direct from the factory in the desired configuration. Amphenol Walk-In Cabinets (WIC) are protective walk-in enclosures housing an integrated system of electronic components and equipment that can serve fiber and copper interfaces.

Why do I need a telecommunications cabinet?

These cabinets also make it easy for technicians to reach the ports they need to expedite service. Patch panels: If your telecommunications system incorporates patch panels to connect and manage your incoming network cables, you can keep them safely stored in your cabinet.
